

Report Date: 10/21/2022

To: ematson@purdue.edu, ahsmith@purdue.edu, and lee3450@purdue.edu

From: TOP GUN

- Heejun Park (parkie0517@gmail.com)
- Taeyun Kim (persimm0ncrack@gmail.com)
- Hanbi Kim (hanbikim20@g.cbnu.ac.kr)
- Seokhyeon Heo (gj4535@gmail.com)
- Jeongho Ha (hjh4212@naver.com)

Summary

Team TOP GUN had a lot of discussions about the upcoming mid-paper, and the mid-presentation. Jeongho and Heejun finished making the ppt for Mid-presentation. Taeyun, Seokhyun, Hanbi finished modifying the Mid-paper. The machine learning team is still struggling with implementing a new model, and the deep learning team is developing a new model using EfficientNet.

What TOP GUN completed this week:

- Reviewed Minji's feedback on Mid-paper.
- Paper Team (Hanbi kim, Taeyun kim, Seokhyeon Heo) finished modifying the Mid-paper.
- Machine Learning Team (Taeyun Kim, Jeongho Ha) continued making the ML model.
- Jeongho and Heejun finished making the ppt for the Mid-presentation.
- Seokhyun started to create EfficientNet.
- Kyung and Jeff reviewed the feedback on Mid-paper.

Things to do by next week

- Prepare for the Mid-presentation and Q&A.
- The machine learning team will complete making the classification models.
- The deep learning team will tune the model and implement another model.

Problems or challenges:

- The deep learning team is having trouble preprocessing the data.
- It took a lot of time to modify the Mid-paper.
